Bloodletting & Miraculous Cures: Stories Vincent Lam

Bloodletting & Miraculous Cures welcomes readers into a world where the most mundane events can quickly become life or death. By following four young medical students and physicians – Ming, Fitz, Sri and Chen – this debut collection from 2006 Scotiabank Giller Prize winner Vincent Lam is a riveting, eye-opening account of what it means to be a doctor. Deftly navigating his way through 12 interwoven short stories, the author explores the characters’ relationships with each other, their patients, and their careers. Lam draws on his own experience as an emergency room physician and shares an insider’s perspective on the fears, frustrations, and responsibilities linked with one of society’s most highly regarded occupations.

“I wanted to write about the way in which a person changes as they become a physician — how their world view shifts, and how they become a slightly different version of themselves in the process of becoming a doctor,” Lam explains. “I wanted to write about the reality that doing good and trying to help others is not simple. It is ethically complicated and sometimes involves a reality that can only be expressed by telling a story.”

In the book’s first story, “How to Get into Medical School, Part 1,” students Ming and Fitz wrestle with their opposing personalities and study techniques, while coming to terms with a growing emotional connection that elicits disapproval from Ming’s traditional Chinese-Canadian parents. Lam’s exceptional talent for describing scenarios with great precision is showcased in “Take All of Murphy,” when Ming, Chen, and Sri find themselves at a moral crossroads while dissecting a cadaver. Throughout the book, readers are treated to the physicians’ internal thoughts and the mental drama involved with treating patients, including Fitz’s struggle with self-doubt in “Code Clock” and Chen’s boredom and exhaustion in “Before Light.”

From delivering babies to evacuating patients and dealing with deadly viruses, the four primary characters in **Bloodletting & Miraculous Cures** are made thoroughly human by Lam’s insightful detail, realistic dialogue, and expert storytelling. The medical world is naturally filled with drama, but it’s the author’s ability to give equal weight to the smaller moments that really brings this book to life.
