Written by financial reporting professionals from the International Financial Reporting Group of Ernst & Young, this three-volume guide to reporting under IFRS provides a global perspective on the real-world interpretation and practical application of IFRS. Complex technical accounting issues are explained clearly and IFRS is set in a practical context with numerous worked examples and hundreds of illustrations from the published financial reports of major listed companies from around the world.

The 2013 edition of International GAAP® has been fully revised and updated in order to:

- Address all new, revised and amended authoritative pronouncements and interpretations including, for many entities, the mandatory adoption in 2013 of IFRS 10 (Consolidated Financial Statements), IFRS 11 (Joint Arrangements), IFRS 12 (Disclosure of Interests in Other Entities), IFRS 13 (Fair Value Measurement) and IAS 19 Revised (Employee Benefits).
- Explain the many initiatives and discussions that are currently being pursued by the IASB and by the IFRS Interpretations Committee and the potential consequential changes to accounting requirements. In particular, projects on Financial Instruments, Revenue Recognition, Leases and Insurance Contracts may all significantly change current accounting practice.
- Provide insight and guidance from a truly global perspective on the many issues relating to the interpretation and practical application of IFRS, based on the extensive experience of the book's authors in dealing with recent day-to-day practical issues.
