A Recommendation for the Use of PIV Credentials in Physical Access Control Systems (PACS)

William MacGregor, Ketan Mehta, David Cooper, Karen Scarfone, U.S. Department of Commerce

The purpose of this document is to describe a strategy allowing agencies to PIV-enable their PACS, and migrate to government-wide interoperability. Specifically, the document recommends a risk-based approach for selecting appropriate PIV authentication mechanisms to manage physical access to Federal government facilities and assets.
