## Quantitative Chemical Analysis (Loose-Leaf) (Budget Books) Daniel C. Harris

The most widely used analytical chemistry textbook in the world, Dan Harris's *Quantitative Chemical Analysis* provides a sound physical understanding of the principles of analytical chemistry, showing how these principles are applied in chemistry and related disciplines—especially in life sciences and environmental science. As always, the new edition incorporates real data, spreadsheets, and a wealth of applications, in a witty, personable presentation that engages students without compromising the depth necessary for a thorough and practical understanding of analytical chemistry.
