Cultural Exchanges between Brazil and France (Comparative Cultural Studies)

Brazil and France have explored each other's geographical and cultural landscapes for more than five hundred years. The Brazilian *je ne sais quoi* has captivated the French from their first encounter, and the *ingenuité à française* of French artistic and scholarly movements has intrigued Brazilians in kind. Ongoing Brazil-France interactions have resulted in some of the richest cultural exchanges between Europe and Latin America. In *Cultural Exchanges between Brazil and France*, leading international scholars evaluate these reciprocal transnational explorations, from the earliest French interventions in Brazil in the sixteenth century to the growing mutual influence that the nations have exerted on one another in the twenty-first century. Original interdisciplinary essays examine cross-cultural interactions and collaborations in the social sciences, intellectual history, the press, literature, cinema, plastic arts, architecture, cartography, and sport. The comparative cultural method used in these analyses deepens the collective treatment of crucial junctures in the long history of often harmonious, but also sometimes ambivalent and occasionally contentious, encounters between Brazil and France.
