Very few careers can offer you the freedom, flexibility and income of day trading. As a day trader, you can live and work anywhere in the world. You can decide when to work (or not to work), be independent from routine and not need to answer to anyone. That is the life of a successful trader.

Many aspire to it, but **few succeed**. An amateur looks at a stock quote screen and sees millions of dollars sparkling in front of his face. He greedily reaches for the money and loses. Thinking he is involved in some kind of gambling, he tries again and loses even more. Many traders fail because the work is hard, some lose out of ignorance, and others lack the necessary patience and discipline.

In the book, I describe the fundamentals of day trading, explain how day trading is different from other styles of trading and investment, and elaborate on important trading strategies that many traders use every day. I've kept the book short so you can actually finish reading it and not get bored by the middle.

**For beginner traders**, this book gives you an understanding of where to start, how to start, what to expect from day trading, and how to develop your strategy. Simply reading this book, however, will not make you a profitable trader. Profit in trading does not come with reading a book or two or browsing online. It comes with practice, the right tools and software and appropriate ongoing education. That's *How to Day Trade for a Living*.

**Intermediate traders** may benefit from the book's extensive overview of some of the classic strategies that the majority of retail traders regularly use with proven success. If you think you are beyond the stage of a novice trader, then you may want to jump ahead and start reading from Chapter 7 for an overview of the most important day trading strategies:

ABCD Pattern Trading  
Bull Flag Momentum Trading  
Top and Bottom Reversal Trading  
Moving Average Trend Trading  
VWAP Trading  
Support and Resistance Trading  
Other Trading Strategies

For each strategy, I explain:

1. How to find the stock for trade
2. What indicators I am using
3. When I enter the trade

4. When I exit the trade (profit)

5. What is my stop loss

I invite you to join me in the world of day trading. I'm a real person who you can connect with. I'm not just a photograph here on the Amazon site. I love what I do. You can follow my blog post under Author Updates on my Author page on Amazon. It's honest. You'll see I lose some days.

You can read the reviews of my book. I know you will learn much about day trading and the stock market from studying my book. You can join at no cost and with no obligation my community of day traders at [vancouver-traders.com](http://vancouver-traders.com). You can ask us questions. Practical, hands-on knowledge. That's *How to Day Trade for a Living*.
