Paul G. Falkowski

Life's Engines: How Microbes Made Earth Habitable (Science Essentials) Paul G. Falkowski

For almost four billion years, microbes had the primordial oceans all to themselves. The stewards of Earth, these organisms transformed the chemistry of our planet to make it habitable for plants, animals, and us. *Life's Engines* takes readers deep into the microscopic world to explore how these marvelous creatures made life on Earth possible--and how human life today would cease to exist without them.

Paul Falkowski looks "under the hood" of microbes to find the engines of life, the actual working parts that do the biochemical heavy lifting for every living organism on Earth. With insight and humor, he explains how these miniature engines are built--and how they have been appropriated by and assembled like Lego sets within every creature that walks, swims, or flies. Falkowski shows how evolution works to maintain this core machinery of life, and how we and other animals are veritable conglomerations of microbes.

A vibrantly entertaining book about the microbes that support our very existence, *Life's Engines* will inspire wonder about these elegantly complex nanomachines that have driven life since its origin. It also issues a timely warning about the dangers of tinkering with that machinery to make it more "efficient" at meeting the ever-growing demands of humans in the coming century.

From reader reviews:

Martha Wilson:

The book Life's Engines: How Microbes Made Earth Habitable (Science Essentials) has a lot details on it. So when you check out this book you can get a lot of advantage. The book was written by the very famous author. Mcdougal makes some research ahead of write this book. This specific book very easy to read you may get the point easily after reading this article book.

Philip Logan:

Your reading sixth sense will not betray you, why because this Life's Engines: How Microbes Made Earth Habitable (Science Essentials) book written by well-known writer we are excited for well how to make book that can be understand by anyone who else read the book. Written throughout good manner for you, leaking every ideas and creating skill only for eliminate your personal hunger then you still uncertainty Life's Engines: How Microbes Made Earth Habitable (Science Essentials) as good book not only by the cover but also from the content. This is one publication that can break don't assess book by its handle, so do you still needing an additional sixth sense to pick this specific!? Oh come on your looking at sixth sense already told you so why you have to listening to a different sixth sense.

Kelly Gomes:

This Life's Engines: How Microbes Made Earth Habitable (Science Essentials) is great publication for you because the content and that is full of information for you who always deal with world and possess to make decision every minute. This specific book reveal it facts accurately using great coordinate word or we can declare no rambling sentences within it. So if you are read this hurriedly you can have whole facts in it. Doesn't mean it only provides you with straight forward sentences but hard core information with attractive delivering sentences. Having Life's Engines: How Microbes Made Earth Habitable (Science Essentials) in your hand like finding the world in your arm, data in it is not ridiculous just one. We can say that no guide that offer you world throughout ten or fifteen moment right but this publication already do that. So , this is certainly good reading book. Heya Mr. and Mrs. busy do you still doubt this?

Robert Quinonez:

What is your hobby? Have you heard this question when you got students? We believe that that issue was given by teacher to the students. Many kinds of hobby, Every individual has different hobby. And you also know that little person including reading or as reading become their hobby. You have to know that reading is very important as well as book as to be the issue. Book is important thing to provide you knowledge, except your own teacher or lecturer. You will find good news or update with regards to something by book. Amount types of books that can you take to be your object. One of them are these claims Life's Engines: How Microbes Made Earth Habitable (Science Essentials).
