Non-Alcoholic Steatohepatitis, An Issue of Clinics in Liver Disease, 1e (The Clinics: Internal Medicine)

Stephen A. Harrison MD LTC MC FACP

This issue presents the views of internationally renowned experts on current findings concerning the epidemiology, natural history, diagnosis, pathogenesis, and treatment of non-alcoholic steatohepatitis. Articles are included on bariatric surgery, liver transplantation, cytokines and apoptosis, as well as insulin resistance and lipotoxicity, to name a few. The Guest Editor himself ends the issue with an article giving his overall perspective on the current clinical management of NASH and future directions.
