Linux Firewalls: Enhancing Security with nftables and Beyond (4th Edition) Steve Suehring
The Definitive Guide to Building Firewalls with Linux

As the security challenges facing Linux system and network administrators have grown, the security tools and techniques available to them have improved dramatically. In *Linux® Firewalls, Fourth Edition*, long-time Linux security expert Steve Suehring has revamped his definitive Linux firewall guide to cover the important advances in Linux security.

An indispensable working resource for every Linux administrator concerned with security, this guide presents comprehensive coverage of both iptables and nftables. Building on the solid networking and firewalling foundation in previous editions, it also adds coverage of modern tools and techniques for detecting exploits and intrusions, and much more.

Distribution neutral throughout, this edition is fully updated for today's Linux kernels, and includes current code examples and support scripts for Red Hat/Fedora, Ubuntu, and Debian implementations. If you're a Linux professional, it will help you establish an understanding of security for any Linux system, and for networks of all sizes, from home to enterprise.

Inside, you'll find just what you need to

- Install, configure, and update a Linux firewall running either iptables or nftables
- Migrate to nftables, or take advantage of the latest iptables enhancements
- Manage complex multiple firewall configurations
- Create, debug, and optimize firewall rules
- Use Samhain and other tools to protect filesystem integrity, monitor networks, and detect intrusions
- Harden systems against port scanning and other attacks
- Uncover exploits such as rootkits and backdoors with chkrootkit

From reader reviews:

Melanie Ratcliff:

Information is provisions for folks to get better life, information nowadays can get by anyone at everywhere. The information can be a knowledge or any news even a concern. What people must be consider whenever those information which is inside former life are challenging to be find than now's taking seriously which one is suitable to believe or which one the particular resource are convinced. If you get the unstable resource then you have it as your main information there will be huge disadvantage for you. All of those possibilities will not happen with you if you take Linux Firewalls: Enhancing Security with nftables and Beyond (4th Edition) as the daily resource information.

Frank Keating:

Spent a free time and energy to be fun activity to perform! A lot of people spent their leisure time with their family, or their friends. Usually they performing activity like watching television, about to beach, or picnic inside the park. They actually doing same every week. Do you feel it? Do you want to something different to fill your personal free time/ holiday? Could possibly be reading a book can be option to fill your free of charge time/ holiday. The first thing that you ask may be what kinds of e-book that you should read. If you want to try look for book, may be the guide untitled Linux Firewalls: Enhancing Security with nftables and Beyond (4th Edition) can be fine book to read. May be it might be best activity to you.

Timothy Lumpkin:

Do you really one of the book lovers? If yes, do you ever feeling doubt if you are in the book store? Aim to pick one book that you never know the inside because don't ascertain book by its handle may doesn't work the following is difficult job because you are scared that the inside maybe not because fantastic as in the outside look likes. Maybe you answer is usually Linux Firewalls: Enhancing Security with nftables and Beyond (4th Edition) why because the wonderful cover that make you consider regarding the content will not disappoint you. The inside or content is usually fantastic as the outside or maybe cover. Your reading sixth sense will directly guide you to pick up this book.

Ralph Pettie:

That reserve can make you to feel relax. This particular book Linux Firewalls: Enhancing Security with nftables and Beyond (4th Edition) was bright colored and of course has pictures on there. As we know that book Linux Firewalls: Enhancing Security with nftables and Beyond (4th Edition) has many kinds or style. Start from kids until teens. For example Naruto or Detective Conan you can read and feel that you are the character on there. Therefore , not at all of book are usually make you bored, any it can make you feel happy, fun and relax. Try to choose the best book to suit your needs and try to like reading that will.
