Assembly Language Programming Notebook (Grayscale Edition): A Color Coded Programmers Software Journal George L Babec

The Assembly Language Programming Notebook, Grayscale Edition, is designed specifically for writing assembly language programs on color coded pages for easy syntactical layout. The notebook provides a user index section to record the name, processor type, and the starting page of each program entered. The example section illustrates methods for recording information using various charts and tables. The notes section includes an ASCII character table for reference in hex, decimal, and octal formats.
