The Speed of Light

L Riofrio

The Speed of Light L Riofrio

"A child's eyes open, and light floods in." Light is one of the most important parts of our lives, through which we perceive the universe around us. L. Riofrio worked as a scientist at NASA in Houston. While studying the Moon at Johnson Space Center, Riofrio found evidence that light is slowing down. In evocative and easy-to-read prose, Riofrio describes the history of light, starting with a child's eyes opening. The book contains just one equation!
