Hadoop Application Architectures: Designing Real-World Big Data Applications Mark Grover, Ted Malaska, Jonathan Seidman, Gwen Shapira

Get expert guidance on architecting end-to-end data management solutions with Apache Hadoop. While many sources explain how to use various components in the Hadoop ecosystem, this practical book takes you through architectural considerations necessary to tie those components together into a complete tailored application, based on your particular use case.

To reinforce those lessons, the book's second section provides detailed examples of architectures used in some of the most commonly found Hadoop applications. Whether you're designing a new Hadoop application, or planning to integrate Hadoop into your existing data infrastructure, Hadoop Application Architectures will skillfully guide you through the process.

This book covers:

- Factors to consider when using Hadoop to store and model data
- Best practices for moving data in and out of the system
- Data processing frameworks, including MapReduce, Spark, and Hive
- Common Hadoop processing patterns, such as removing duplicate records and using windowing analytics
- Giraph, GraphX, and other tools for large graph processing on Hadoop
- Using workflow orchestration and scheduling tools such as Apache Oozie
- Near-real-time stream processing with Apache Storm, Apache Spark Streaming, and Apache Flume
- Architecture examples for clickstream analysis, fraud detection, and data warehousing

From reader reviews:

Ian Ashlock:

This Hadoop Application Architectures: Designing Real-World Big Data Applications book is not really ordinary book, you have it then the world is in your hands. The benefit you obtain by reading this book is actually information inside this e-book incredible fresh, you will get facts which is getting deeper you read a lot of information you will get. That Hadoop Application Architectures: Designing Real-World Big Data Applications without we know teach the one who studying it become critical in pondering and analyzing. Don't end up being worry Hadoop Application Architectures: Designing Real-World Big Data Applications can bring whenever you are and not make your handbag space or bookshelves' turn out to be full because you can have it with your lovely laptop even telephone. This Hadoop Application Architectures: Designing Real-World Big Data Applications having fine arrangement in word and layout, so you will not feel uninterested in reading.

Leon Santiago:

Do you have something that you enjoy such as book? The guide lovers usually prefer to select book like comic, brief story and the biggest one is novel. Now, why not attempting Hadoop Application Architectures: Designing Real-World Big Data Applications that give your pleasure preference will be satisfied by means of reading this book. Reading behavior all over the world can be said as the method for people to know world much better then how they react to the world. It can't be stated constantly that reading routine only for the geeky individual but for all of you who wants to be success person. So , for every you who want to start looking at as your good habit, it is possible to pick Hadoop Application Architectures: Designing Real-World Big Data Applications become your own personal starter.

Kyle Raya:

Do you like reading a reserve? Confuse to looking for your best book? Or your book seemed to be rare? Why so many problem for the book? But any kind of people feel that they enjoy intended for reading. Some people likes examining, not only science book but additionally novel and Hadoop Application Architectures: Designing Real-World Big Data Applications or maybe others sources were given know-how for you. After you know how the great a book, you feel need to read more and more. Science book was created for teacher or maybe students especially. Those textbooks are helping them to include their knowledge. In other case, beside science book, any other book likes Hadoop Application Architectures: Designing Real-World Big Data Applications to make your spare time more colorful. Many types of book like this.

Arlene Wilson:

Reading a publication make you to get more knowledge from this. You can take knowledge and information from your book. Book is written or printed or highlighted from each source this filled update of news. Within this modern era like now, many ways to get information are available for a person. From media social

including newspaper, magazines, science e-book, encyclopedia, reference book, book and comic. You can add your knowledge by that book. Are you ready to spend your spare time to open your book? Or just seeking the Hadoop Application Architectures: Designing Real-World Big Data Applications when you necessary it?
