## Medical Selection of Life Risks

Medical Selection of Life Risks has long been recognised as the reference book on insurance medicine. The fourth edition provides a comprehensive guide to life expectancy for underwriters and clinicians involved in the life insurance industry. Extensively revised and expanded the 4th edition of Medical Selection of Life Risks reflects developments in life and healthcare insurance as well as medicine. There are completely new chapters: on the underwriting of genetic diseases, disability underwriting, impaired lives annuities, musculoskeletal and soft tissue disorders. Several major chapters have been completely re-written, including respiratory, ischemic and congenital heart diseases and oncology. Part I - deals with the principles of life and disability insurance and the logistics of life underwriting. Part II - is devoted to a systematic clinical appraisal of underwriting problems, mainly relating to life insurance but also, where appropriate, to disability, critical illness and long term care insurance.
