The Cobra Effect Christy Esmahan

The Award-winning author of *The Laptev Virus* is back with another hard scifi book called *The Cobra Effect*. Cory Banks, a workaholic researcher, has been focused on one goal his entire life: finding a way to clean up the oceans. Living in India, he genetically engineers a bacterial strain that will degrade plastics but disaster strikes and the bacteria grow out of control, eating holes in boats, buoys, life jackets, etc. Desperate to stop the bacteria, Cory comes up with a plan to create a virus that will specifically attack them. But to do this he needs the help of a virologist and there's only one person who is skilled enough to handle this emergency on short notice. Her name is Sarah Spallanzani and she also happens to be his ex-girlfriend. Having recently finished her travails in *The Laptev Virus*, Sarah agrees to take on the problem. But tension mounts when Sarah discovers a second bacterial strain and suspects Cory of sabotage.
