The Mercifully Brief, Real World Guide to Attracting the Attention Your Cause Deserves Joseph Barbato

To attract attention to your cause, you could: -Paint your building Day-Glo orange -Blare hip hop music from the rooftop -Have staff members sport Mohawk haircuts But if you're a bit less bombastic, and searching for innovative (and more palatable) ways to attract ongoing attention, you'll fare much better with Joseph Barbato's book, *Attracting the Attention Your Cause Deserves*. First, let's make clear what this book is NOT. It is not a guide for writing press releases. It is not a manual for creating a speaker's bureau. It is not a treatise offering PR palaver. All of those hairs have been split ... many times over. *Attracting the Attention Your Cause Deserves* is something far more useful – and invigorating – to those wanting to advance the good work of their organization. Think of it as a "Trade Secrets Revealed" book, one allowing you to accomplish three key objectives for your cause: 1) Greater visibility 2) A broader constituency 3) More money raised And who better to write it than Joseph Barbato, a widely respected pro who's worked both sides of the aisle. For 20 years he toiled in the public information departments of various nonprofits. Now he heads an award-winning firm that works with some of America's top nonprofits. After reading *Attracting the Attention Your Cause Deserves*, here are just a few of the skills you'll become more proficient at: - Sharpening your organization's niche -Identifying the range of people who benefit from your work ... thereby targeting your audiences with greater precision - Cultivating the right media people, locally, regionally, and nationally if appropriate - Organizing your website most efficiently for the press - Making a persuasive pitch, in writing and over the phone - Becoming the "go to" person for reporters and others, and - Learning how to package your expertise to gain even greater exposure With more than a million nonprofit organizations in existence, there's a lot of noise out there. Shouting won't get you noticed – everyone's doing that. And everyone's tuning it out. What will attract attention is following Joseph Barbato's field-tested advice. Take his insider wisdom to heart. It spills over every single page of this book. Then, even if you whisper, rest assured you'll still be heard.
