## **The Red-cockaded Woodpecker: Surviving in a Fire-Maintained Ecosystem (Corrie Herring Hooks)**

Richard Conner, D. Craig Rudolph, Jeffrey R. Walters

Though small among its woodpecker relatives, the Red-cockaded Woodpecker poses a huge dilemma for its human neighbors. Uniquely adapted to live in the old-growth pine forests of the southeastern United States, the Red-cockaded Woodpecker has nearly disappeared as the forests have been cleared for agricultural, commercial, and residential uses over the last two centuries. Today, it waits at a crossroads. Scientific management practices could restore the woodpecker's habitat and population, but the imperative to convert old-growth forests to other uses remains.

In this book, three of the leading experts on the Red-cockaded Woodpecker offer a comprehensive overview of all that is currently known about its biology and natural history and about the ecology of the fire-maintained forests it requires for survival. As the most visible endangered species in the Southeast, and the one whose conservation impacts the largest land area, the Red-cockaded Woodpecker holds a compelling interest not only for ornithologists, but also for wildlife managers, foresters, developers, environmentalists, and government officials. For all of these groups, this book will be the essential resource for learning more about the Red-cockaded Woodpecker and ensuring its survival.

#### **Barry Trusty:**

As a scholar exactly feel bored to help reading. If their teacher questioned them to go to the library as well as to make summary for some book, they are complained. Just minor students that has reading's spirit or real their pastime. They just do what the educator want, like asked to go to the library. They go to right now there but nothing reading significantly. Any students feel that reading is not important, boring along with can't see colorful photographs on there. Yeah, it is to be complicated. Book is very important for yourself. As we know that on this period, many ways to get whatever we want. Likewise word says, many ways to reach Chinese's country. So , this The Red-cockaded Woodpecker: Surviving in a Fire-Maintained Ecosystem (Corrie Herring Hooks) can make you sense more interested to read.
