The Synagogue of Satan Milan Martin

About two thousand years ago, our Lord Jesus Christ appeared to the apostle John on the island of Patmos and revealed to him the existence of an ancient satanic fraternity that still exists to this day. Jesus called it the Synagogue of Satan, but it has been called by many different names down through the years by many different peoples and cultures. Those groups who actually worshipped Satan, both then and now, have always been mysterious and obscure to the general public, which have always found it hard to explain their very existence. On the back cover of this book is the depiction of a temple or cathedral located atop the mountain in southern France known as Montsegur, which means secure mountain. Archeologists and historians tell us they believe this ruin was once a solar temple, but the Catholic Church repeatedly labeled this structure *The Synagogue of Satan*.
