The Troika

Stepan Chapman

The Troika Stepan Chapman

Under the glare of three suns, three beings travel across an endless desert. They argue, whine, wheedle and needle each other. Sometimes they switch identities when the sandstorms roar in. As *The Troika* rolls on, we learn more about Alex, who started out as a man, then became cyborg, then jeep. About Naomi, a veteran soldier who woke up from her cryogenic storage tank to a new life, now a dinosaur. About Eva, who fled her native land to escape her fate as an organ-donor for the emperor. Fantasy? Surrealism? The desert landscape spins and alters as we look at the man behind the curtain: mad angel Dr. Mazer, testing a controversial therapy program at his isolated asylum. Science fiction after all?

Winner of the Philip K. Dick Award for 1997, *The Troika* is speculative literature at its finest. --*Bonnie Bouman*
