Tim Cook

The Necessary War, Volume 1: Canadians Fighting The Second World War:1939-1943 Tim Cook
Co-winner of the 2014-2015 Charles P. Stacey Award

The definitive account of Canadians fighting in the Second World War written by Canada's premier military historian

Tim Cook, Canada's leading war historian, ventures deep into the Second World War in this epic two-volume story of heroism and horror, loss and longing, and sacrifice and endurance.

Written in Cook's compelling narrative style, this book shows in impressive detail how soldiers, airmen, and sailors fought--the evolving tactics, weapons of war, logistics, and technology. He also examines the war as an engine of transformation for Canada. With a population of fewer than twelve million, Canada embraced its role as an arsenal of democracy, exporting war supplies, feeding its allies, and raising a million-strong armed forces that served and fought in nearly every theatre of war. The six-year-long exertion caused disruption, provoked nationwide industrialization, ushered in changes to gender roles, exacerbated the tension between English and French, and forged a new sense of Canadian identity. It showed that Canadians were willing to bear almost any burden and to pay the ultimate price in the pursuit of victory.
