Children and Adults with Learning Disabilities

Tom C. Smith, Carol A. Dowdy, Edward A. Polloway, Ginger Blalock

Children and Adults with Learning Disabilities Tom C. Smith, Carol A. Dowdy, Edward A. Polloway, Ginger Blalock

The most significant features of this book focus on its organization and content. Differing from all other introductory learning disabilities books, this book provides a true introduction to the field of learning disabilities, but does not include material related to methods of teaching students with learning disabilities. Rather, it provides a wealth of information that will provide readers with the knowledge necessary to understand this very nebulous category of disabilities. A lifespan approach is used, which follows individuals with learning disabilities from preschool and elementary ages through adulthood. In this book, learning disabilities is viewed as a broader category of disabilities than in many other books. A chapter on concomitant disabilities describes the many different problems that an individual can have in addition to exhibiting learning disabilities. For professionals working in the field of special education.
