Land Use and Land Cover Mapping in Europe: Practices & Trends (Remote Sensing and Digital Image Processing)

Land Use and Land Cover Mapping in Europe: Practices & Trends (Remote Sensing and Digital Image Processing)

Land use and land cover (LULC) as well as its changes (LUCC) are an interplay between bio-geophysical characteristics of the landscape and climate as well as the complex human interaction including its different patterns of utilization superimposed on the natural vegetation. LULC is a core information layer for a variety of scientific and administrative tasks (e.g. hydrological modelling, climate models, land use planning). In particular in the context of climate change with its impacts on socio-economic, socio-ecologic systems as well as ecosystem services precise information on LULC and LUCC are mandatory baseline datasets required over large areas. Remote sensing can provide such information on different levels of detail and in a homogeneous and reliable way. Hence, LULC mapping can be regarded as a prototype for integrated approaches based on spaceborne and airborne remote sensing techniques combined with field observations. The book provides for the first time a comprehensive view of various LULC activities focusing on European initiatives, such as the LUCAS surveys, the CORINE land covers, the ESA/EU GMES program and its resulting Fast-Track- and Downstream Services, the EU JRC Global Land Cover, the ESA GlobCover project as well as the ESA initiative on Essential Climate Variables. All have and are producing highly appreciated land cover products. The book will cover the operational approaches, but also review current state-of-the-art scientific methodologies and recommendations for this field. It opens the view with best-practice examples that lead to a view that exceeds pure mapping, but to investigate into drivers and causes as well as future projections.

From reader reviews:

Timothy Brown:

Reading a book can be one of a lot of task that everyone in the world likes. Do you like reading book so. There are a lot of reasons why people love it. First reading a e-book will give you a lot of new info. When you read a e-book you will get new information mainly because book is one of many ways to share the information or their idea. Second, examining a book will make you actually more imaginative. When you reading a book especially tale fantasy book the author will bring one to imagine the story how the people do it anything. Third, you can share your knowledge to other folks. When you read this Land Use and Land Cover Mapping in Europe: Practices & Trends (Remote Sensing and Digital Image Processing), it is possible to tells your family, friends along with soon about yours book. Your knowledge can inspire average, make them reading a e-book.

Gwendolyn Smith:

Reading a book being new life style in this calendar year; every people loves to study a book. When you learn a book you can get a wide range of benefit. When you read books, you can improve your knowledge, due to the fact book has a lot of information in it. The information that you will get depend on what kinds of book that you have read. In order to get information about your study, you can read education books, but if you want to entertain yourself read a fiction books, this kind of us novel, comics, and soon. The Land Use and Land Cover Mapping in Europe: Practices & Trends (Remote Sensing and Digital Image Processing) will give you a new experience in examining a book.

Rick Fairchild:

Many people spending their period by playing outside along with friends, fun activity along with family or just watching TV the whole day. You can have new activity to invest your whole day by examining a book. Ugh, ya think reading a book can really hard because you have to accept the book everywhere? It all right you can have the e-book, getting everywhere you want in your Mobile phone. Like Land Use and Land Cover Mapping in Europe: Practices & Trends (Remote Sensing and Digital Image Processing) which is keeping the e-book version. So , why not try out this book? Let's find.

Henry Buford:

Do you like reading a guide? Confuse to looking for your preferred book? Or your book had been rare? Why so many issue for the book? But just about any people feel that they enjoy regarding reading. Some people likes looking at, not only science book but also novel and Land Use and Land Cover Mapping in Europe: Practices & Trends (Remote Sensing and Digital Image Processing) or perhaps others sources were given information for you. After you know how the fantastic a book, you feel need to read more and more. Science publication was created for teacher or perhaps students especially. Those guides are helping them to increase their knowledge. In some other case, beside science guide, any other book likes Land Use and Land Cover

Mapping in Europe: Practices & Trends (Remote Sensing and Digital Image Processing) to make your spare time more colorful. Many types of book like this one.
